

Bible Memorization Kit

Here is a simple yet effective way to memorize Bible verses. Cut out, fold and tape or glue the card holder pictured below. Next cut out the Bible verse cards on the following pages. Place four or five cards at a time that you want to memorize into the holder. All that should be showing is the reference at the top of the card. As you work at memorizing take the top card and move it to the back and the reference to the second card should be showing. As soon as you are able to flip through all five cards and say them by only looking at the reference take those cards out and insert five more. As you memorize you can mix and choose the verses that are most meaningful to you.

Cut out the card holder. Fold on the dashed lines and tape or glue the two flaps.
